## UNLOCKING THE POTENTIAL WITHIN

Children have an unquenchable thirst for knowledge. Energetic, enthusiastic and intelligent; they are eager to understand the world around them and their place in it.

At Maple Leaf International School, we bring the joy of learning into your child's classroom through the student-centred approach of the Ontario education system.

At the heart of the Maple Leaf experience is a learning environment where children thrive because they feel respected and valued by their peers; and supported by teachers who also serve as facilitators and advocates.

Our focus is on developing self-directed learners and critical thinkers, self-sufficient young men and women who are equipped with the skills to navigate their way through our rapidly changing world.

Maple Leaf students are also global citizens who understand their role in effecting positive change in the society in which they live. Our comprehensive curriculum, complemented by a range of sports and arts programmes, allows students to explore and discover their unique talents and strengths, and nurture them for life beyond our walls.

Because of all that's within Maple Leaf – an immersive curriculum, dedicated teachers, modern and well equipped facilities – we feel confident and privileged in our duty to guide your child in unlocking the potential within.

**80%+**

of secondary school teachers have **OCT (Ontario Certified Teachers) certification**

## AN EDUCATION OF PURPOSE

Walk into a Maple Leaf classroom and you may find a group of students leading the session, confidently incorporating technology to enrich their presentation.

Walk into another and you may notice groups of students engrossed in peer-teaching and collaboration.

Here, teachers are more than just imparters of knowledge. They facilitate its discovery. Coupled with a modern and wide-ranging curriculum, this student-centred approach empowers young minds to explore, create and develop.

Our school year is dotted with house league activities, academic and sports competitions, field trips, charitable fundraisers and volunteerism programmes; giving students the opportunity to enrich relationships, build character, and gain a better understanding of the world around them.

*“The teachers really care about you. As a student, there is so much help available that it feels like you’re part of a big family.”*

Aliana Welch, Grade 10

## THE ONTARIO EDUCATION SYSTEM

- Maple Leaf offers an authentic Ontario education experience.
- We are one of only 19 international schools in the world accredited by the Ontario Ministry of Education.
- To maintain this accreditation, we are audited annually by the Ontario Ministry of Education to ensure strict adherence to the standards of the Ontario Education System.
- The Canadian Education System is ranked among the top education systems in the world.
- We offer a contemporary approach to education which is student-centred, interactive and technology based.
- Students transition seamlessly from Elementary School to Secondary School – they do not write the SEA exam.
- Our students graduate with an Ontario Secondary School Diploma – recognised and respected at institutions of higher learning around the world.
